Life

“Every tree used in furniture production is the beginning of a story for us. Skilfully selected, carefully crafted and admirably shaped. Each piece of furniture bears traces of life in every particle of wood. These pieces are not only furniture, but also a fascinating gift from nature. By using this precious material, we feel our respect for trees and gratitude for this unique gift from nature in every detail.”

Water

Inspired by the teachings of nature, we preferred native forms and fluid lines similar to the movements of water in the design of our products. In this process we have created a harmonious wholeness with elements that seemingly contradict each other, considering that even opposites are in harmony.
